FEATURES

Supports Many Popular HD Videos:

The Cyclone HD2 supports many popular 1080p HD video formats currently available on the market.

Formats supported include H.264, MKV, Xvid, MPEG 2-TS, RMVB (up to 720p) and WMV9.

Supports SATA HDD, USB Host and LAN Samba Client:

Built-in storage unit lets you add your own SATA HDD to store all your media files.

With USB 2.0 support you can plug storage devices such as HDD, flash drives or mp3 and play them directly through the HD2.

The Cyclone HD2 can act as a Samba client allowing you to stream media from your PC directly to your player. Play standard and HD media fast and efficiently with no slow down.

Built-in Twin Freeview Tuner:

Ready to record freeview quality video straight to your HDD?

With the twin tuner you can watch your current channel and record a different one at the same time.

Internet Media Service:

Preset Internet services are available to access straight from the player. Internet services such as BBC, NPR and many more are available for you to access.
