

V-CUBE 5.1 Home Cinema System

FEATURES

The Sumvision V-Cube 5.1 cinema system provides multidirectional audio effects, giving you an exhilarating gaming and cinematic experience.

Built-in mp3 player:

Simply plug your USB pen drive or SD memory card into the respective port.

With its built-in mp3 player, you can play your music straight from the system.

No other device required.

Stylish LED light:

Blue LED light subtly illuminates your subwoofer to give it a stylish aura when in operation.

Onboard Controls:

Controls onboard the subwoofer allow you to perform adjustments such as volume and bass as well as mp3 playback.
